Penny Wise, Pound Brilliant: **How Law Departments Can Drive Revenue**

This roundtable discussion, moderated by Matthew Faranda-Diedrich of Royer Cooper, will focus on cost-neutral tactics for law departments to pivot from being looked at as a cost center, to being considered a revenue generator for the business. We will lead an open dialogue about the ideas for how to accomplish that objective:

- Commercial contract compliance and enforcement – front end (standard forms and processes; insurance/indemnity) and back end (monitoring; litigation, either contingent fee or third-party financed);
- Class Actions – opt-out, or as a class member;
- Monetizing IP – monitoring/responding to infringement;
- Insurance claims/coverage;
- Creditor claims in bankruptcy;
- Using future business opportunities as dispute resolution technique.
