of Notre Dame

Andy Schlidt is a shareholder in the Technology & Digital Business, the Data Privacy & Cybersecurity and the Corporate legal practice groups. He advises clients in commercial transactions and compliance matters, drawing on his prior consulting work at Accenture and his Masters in Technology from Purdue University.

As Chair of the Technology & Digital Business practice, Andy negotiates a wide variety of commercial transactions. Recent engagements include domestic and offshore outsourcing deals (ITO/BPO), XaaS and cloud subscriptions, IT licensing, software development, hardware acquisition, IT joint developments, and strategic alliances. He also counsels clients on telecommunications matters including wireless, wireline, fiber optic, small cell, DAS, broadband, and telecom infrastructure deployment.

As Co-chair of the firm's Data Privacy & Cybersecurity practice, Andy helps demystify IT compliance for clients with a focus on data breach response, privacy and cybersecurity programs, vendor management, cyber insurance, and IT dispute resolution. He provides guidance on data privacy regulations, including the California Consumer Privacy Act (CCPA). Emerging areas of interest include the IoT, IIoT, AI, Blockchain, smart contracts, smart cities, and connected environments. He supports the firm's internal compliance initiatives as the firm's Chief Privacy Officer.

While at Purdue, Andy wrote his thesis on the technology risk management practices of Fortune 200 companies. He is a member of ITechLaw (a worldwide technology law community), the International Association of Outsourcing Professionals (IAOP), the International Association of Privacy Professionals (IAPP) and the Federal Communications Bar Association. He has served on the Advisory Board of the University of Wisconsin E-Business Consortium, and as a member of the Telecommunications Committee of the Wisconsin Public Utilities Institute.

Representative Experience

Technology counsel to a Fortune 100 financial services company for technology transactions, including negotiation of IT procurement, licensing, services, and outsourcing agreements with global vendors onshore and offshore.

Technology counsel to a Fortune 500 manufacturing company for technology transactions, including negotiation of IT procurement and IT managed services agreements with SAP, IBM, WIPRO, INFOSYS, and HCL for global operations.

Technology counsel to a U.S. manufacturer on remediation of a data security breach involving more than 100,000 credit cards stolen through the company's e-commerce site.

Technology counsel to one of the largest U.S. private companies in the outsourcing of core administrative business processes to four service providers in India.

Representative Experience

Technology counsel to a Wisconsin based healthcare system in the development of vendor and customer agreements for the commercialization of its propriety, custom developed electronic health record software, including creation of a Software as a Service offering to regional health clinics.

Outside general counsel to a U.S. fiber optics network aggregator and construction company on the deployment of its broadband network and negotiation of key vendor and customer agreements, as well as regulatory matters involving state public service commissions and the Federal Communications Commission (FCC).

Counsel to a Midwest IT solution provider of storage, data protection, virtual infrastructure, network access and optimization services on the implementation of an IT outsourcing program to offer to its corporate clients, including drafting and negotiating underlying customer and vendor agreements.

Counsel to a U.S.-headquartered computer manufacturer on the acquisition of a strategic third-party patent for purposes of integrating a liquid cooling technology into its core computer products. Further advised on securing additional patent protection for company innovations in this area.

Counsel to an international logistics software developer in the drafting and enforcement of master technology agreements, implementation agreements, maintenance and support agreements, reseller agreements, joint development agreements and strategic alliance agreements. Negotiated deals with customers such as DuPont, Sears, Target, and Pepperidge Farm.

Counsel to NYSE and NASDAQ telecommunications utilities in the deployment of wireless digital networks in Wisconsin, including securing government approvals, acquiring public and private land rights and negotiating lease/ co- location agreements.

Counsel to various real estate developer and property management companies in negotiating building access agreements for the provision of telecommunications or broadband utility deployment in their buildings. Recent example includes representing of a large regional nursing home and assisted living facility company in deployment of Charter broadband video and internet services to its 15 facilities in the Midwest.

Counsel to a US headquartered manufacturer of forklift and related equipment in the development and implementation of an enterprise-wide information security program.

Los Angeles, 2003

Justin serves as co-chair of the firm's Data Privacy & Cybersecurity Practice Group and the firm's Chief Information Security Officer (CISO). He is also a member of the firm's Technology & Digital Business Practice Group. Justin holds the Certified Information Privacy Professional/US (CIPP/US) certification from the International Association of Privacy Professionals.

Justin's practice focuses on helping clients with the legal issues that arise from technology and data in an increasingly digital world, with a specific focus on cybersecurity and data privacy matters. His work includes:

- Compliance with state, federal and international privacy laws, including the General Data Protection Regulation 2016/679 (EU) (GDPR), the California Consumer Privacy Act (CCPA), and the New York Department of Financial Services Cybersecurity Regulation
- Data breach response and remediation
- Data breach prevention
- Drafting, reviewing and consulting on written information security programs, incident response plans, and subsidiary information technology and security standards and policies
- Establishing data privacy programs, including drafting, reviewing and consulting on data privacy notices and policies, governance, and information handling
- Cybersecurity and data privacy due diligence in mergers and acquisitions
- Litigation and regulatory matters concerning cybersecurity and data privacy
- Negotiating myriad technology contracts, including SaaS, software development, outsourcing, hosting, and technology implementation agreements

In his CISO role, Justin oversees the firm's information security program and incident response process, assesses the firm's cybersecurity posture and its security systems and measures, and develops strategies to mitigate risks to the confidentiality, security, integrity, and availability of firm systems and data.

Prior to joining Godfrey & Kahn, Justin was an associate at a large Milwaukee firm where he focused on data privacy and security matters, and litigated cases in both federal and state court. Prior to private practice, Justin served as a judicial law clerk to the Honorable J.P. Stadtmueller of the U.S. District Court for the Eastern District of Wisconsin.

During law school, Justin was a judicial intern for Justice Ann Walsh Bradley of the Wisconsin Supreme Court and the Honorable Diane S. Sykes of the Seventh Circuit Court of Appeals.

Prior to practicing law, Justin was the Information Security Officer at a top-100 private university, where he was in charge of all aspects of the university's information security program, including intrusion detection and prevention, incident response, penetration testing, and forensic analysis. He also coordinated with the university's general counsel on legal issues relating to cybersecurity and information privacy.

ARIANE C. STROMBOM

ASSISTANT GENERAL COUNSEL

Ariane Strombom is Assistant General Counsel and Assistant Secretary in Northwestern Mutual's in-house Law Department. Strombom's practice includes negotiating key technology transactions, leading a team to oversee legal and regulatory aspects of digital and traditional marketing campaigns, advising in-house innovation initiatives on intellectual property and technology law, and leading process improvement for transactional legal work across the enterprise.

Prior to joining the Company, Strombom was an associate at the Milwaukee office of Whyte Hirschboeck Dudek, focusing on corporate and technology law.

Strombom graduated from Marquette University Law School, where she served as an Editor of the Marquette Intellectual Property Law Review and argued before U.S. Supreme Court Justice Elena Kagan in the final round of Marquette's Jenkins Honors Moot Court Competition. Strombom earned her B.A. in Political Science and International Studies from the University of Wisconsin – Madison.

Before law school, Strombom launched a national office of a global non-profit in Doha, Qatar and led the national chapter of the same organization in the United Kingdom, managing and growing the charity's relationships with global corporations and national blue-chip firms.

Strombom serves as Chair for the International Technology Law Association's Young Lawyers' Committee, and is a member of the Women's Fund of Greater Milwaukee's Grants Committee.
