

7 spend strategies for rapid litigation cost reduction

Due to the COVID-19 crisis, corporate law departments are in critical need of significant cost reduction solutions and are looking for quick-win savings opportunities. Theory is taking a back seat to **ACTION**.

Recognizing this, Epiq started with the question ... **“What strategies can our clients use TODAY to sharply reduce costs, but without losing business knowledge or reducing the quality of their services?”**

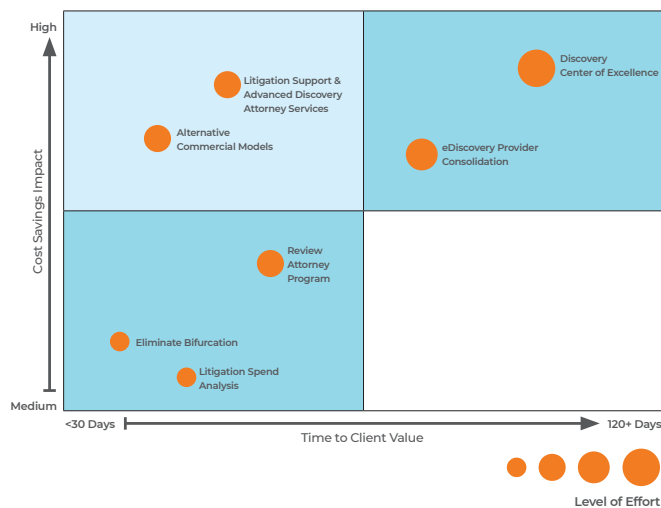

To answer this question, we built a library of 35+ top spend savings strategies drawn from discovery, information governance, contracts, and legal operations, all of which can decrease your costs, reduce risk, and help your corporate legal department better position itself for future growth.

In fact, utilizing just the top seven cost savings strategies related to discovery, you could experience an immediate impact of 20-35% reduction in the total cost of ownership of the discovery stage of litigation.

Top 7 Discovery Cost Cutting Strategies

We’ve already narrowed the litigation choices to the seven most common with the biggest impact—now let our team of experts help you evaluate which strategies could help decrease your expenses while improving your processes and quality of service.

Strategy	Benefits	Risks	Savings	Speed to Value
Litigation Spend Analysis	██████████	██████████	██████████	30 60 90 120+
Eliminated Bifurcation	██████████	██████████	██████████	30 60 90 120+
Provider Consolidation	██████████	██████████	██████████	30 60 90 120+
Review Attorney Program	██████████	██████████	██████████	30 60 90 120+
Alternative Commercial Models	██████████	██████████	██████████	30 60 90 120+
