

## Become more involved with ACC St. Louis Chapter — increase your ROI in St. Louis membership!

Much of the work to plan and implement the St. Louis Chapter's extensive programming and events is done through our committees. We have a variety of committees and serving on a committee is not a huge time commitment and is a great way to get to know more ACC members.

The committee work is done through phone calls and can be done on your schedule so it will fit in with your busy workday. Additionally, Board Members are generally recruited from active committee members. We hope that you will get involved by serving on a committee this year.
