BURNOUT & BEYOND: UNDERSTANDING & ADDRESSING MENTAL HEALTH IN THE PRACTICE OF LAW

Attorneys experience depression, anxiety, stress, and substance-use disorders at higher rates than other professions. This makes it important for lawyers to understand and address mental health concerns. Our panel will examine biological and social contributors to common mental health diagnoses and their professional, financial, and human cost. We will discuss strategies for prevention and treatment and provide some practical tips to improve mental health and cognitive functioning.

How has ACC helped your career?

ACC has allowed me to meet amazing contacts in my practice area and beyond! I am a graduate of the ACC-NCR's Leadership Program, which is a year-long initiative that prepares in-house counsel for leadership opportunities. ACC also helped me to develop new skills and to speak at conferences on a variety of topics. Most importantly, I serve as the **chair** of the **Financial Services Network** and also as a **membership chair** for the **Women in the House Network** and have enjoyed working with talented leaders and wonderful sponsors to deliver relevant content and useful resources to our members.
