Daniel Nelson, Esq. Co-Founder & COO, Digital Silence, Ltd., Denver CO

As a former law firm partner and certified ethical hacker, Dan Nelson is uniquely qualified to educate legal professionals on the importance of cybersecurity initiatives. Through his experience in both industries he provides the information needed from both a technical and legal standpoint to understand the growing importance of cybersecurity. Dan is a Certified Information Systems Security Professional (CISSP), a Certified Ethical Hacker (C|EH), and part of the International Association of Privacy Professionals (CIPP/US).

In addition to his professional certifications Dan holds a J.D. from University of Missouri and a BS in Economics from Oklahoma State University. Dan is also a frequent author and speaker, with a particular emphasis on educating non-technical audiences on the importance and principles of cybersecurity. In addition, Dan has spoken at bar association meetings for multiple state bars and also serves as an Adjunct Professor at Washington University in St. Louis' School of Law, where he teaches a course on Privacy & Data Security.
