

Galloway Johnson Tompkins Burr & Smith is proud to sponsor ACC Dallas. We are a premier corporate defense and litigation firm in the Lonestar State that partners with clients in achieving their business and legal objectives and producing positive outcomes.

Founded in New Orleans thirty eight years ago with four lawyers, our Firm has grown and expanded to thirteen offices across seven states with more than 135 lawyers. Galloway has provided result-driven representation in Texas for three decades, as Houston was our first office outside of Louisiana.

With deep industry knowledge and expertise, Galloway attorneys are skilled in handling complex corporate transactions and litigation. We proactively anticipate challenges, stay in the forefront of legal issues, and work with reliability, transparency, and honesty.

Our local representation in Dallas is strengthened by our regional reach. Galloway's regional footprint makes a difference in our approach as we implement a multi-discipline, multi-jurisdictional collaborative strategy for regional and national clients. Across the Gulf South and Midwest, we have represented clients in commercial, retail & restaurant, construction, transportation, hospitality, oil & gas, energy, and maritime industries. We effectively handle disputes through litigation, arbitration, or mediation.

At our core, our Firm culture is success. Mark "Tiger" Pharr manages our Dallas office, and he brings more than 34 years of practice experience and expertise, having tried more than 40 matters to verdict and resolved thousands of other matters. His colleague Berenice Medellin Pruettiangkura, who is serving as 2025 President of the Dallas Hispanic Bar Association, secured summary judgment on behalf of our clients, a local bar in Fort Worth, in a dram shop wrongful death case.

Galloway is efficient, accessible, and responsive. We have been rated and recognized by Chambers USA, Best Law Firms, and Martindale-Hubbell. One client commented, "What sets Galloway Johnson Tompkins Burr & Smith apart is their commitment to client advocacy. They prioritize clear communications [and] their approach is client-centered, tailoring strategies to suit each client's unique needs and objectives while always maintaining the highest ethical standards."

We look forward to our involvement in ACC Dallas.
