THE PROBLEM

- **Too Much Law, Multiple Tools, More Risk**

Speed is no longer the constraint.

Reasoning integrity is.

**Cognitive
Overload**

**Fragmented
Workflows**

Hidden Risk

The volume of law has exploded beyond human cognitive limits.

Winning positions fail not because lawyers lack information — but because something important is missed.

Fluent outputs create false confidence.

THE SOLUTION

Miai Law is a legal AI research partner that establishes legal ground truth with verifiable reasoning so lawyers can exercise defensible judgment with confidence.

What

MiAI Law helps lawyers see the full legal landscape around a legal question by surfacing relevant issues, connections, and risks that are easily missed.

Why

Research platforms retrieve.
AI tools draft.
But no other tool delivers legal reasoning that is precise, complete and coherent.

How

MiAI Law delivers:

- traceable legal reasoning,
- pinpoint authority and references

while preserving independent professional judgment.

Who

ALL LAWYERS
especially
lawyers operating at scale.

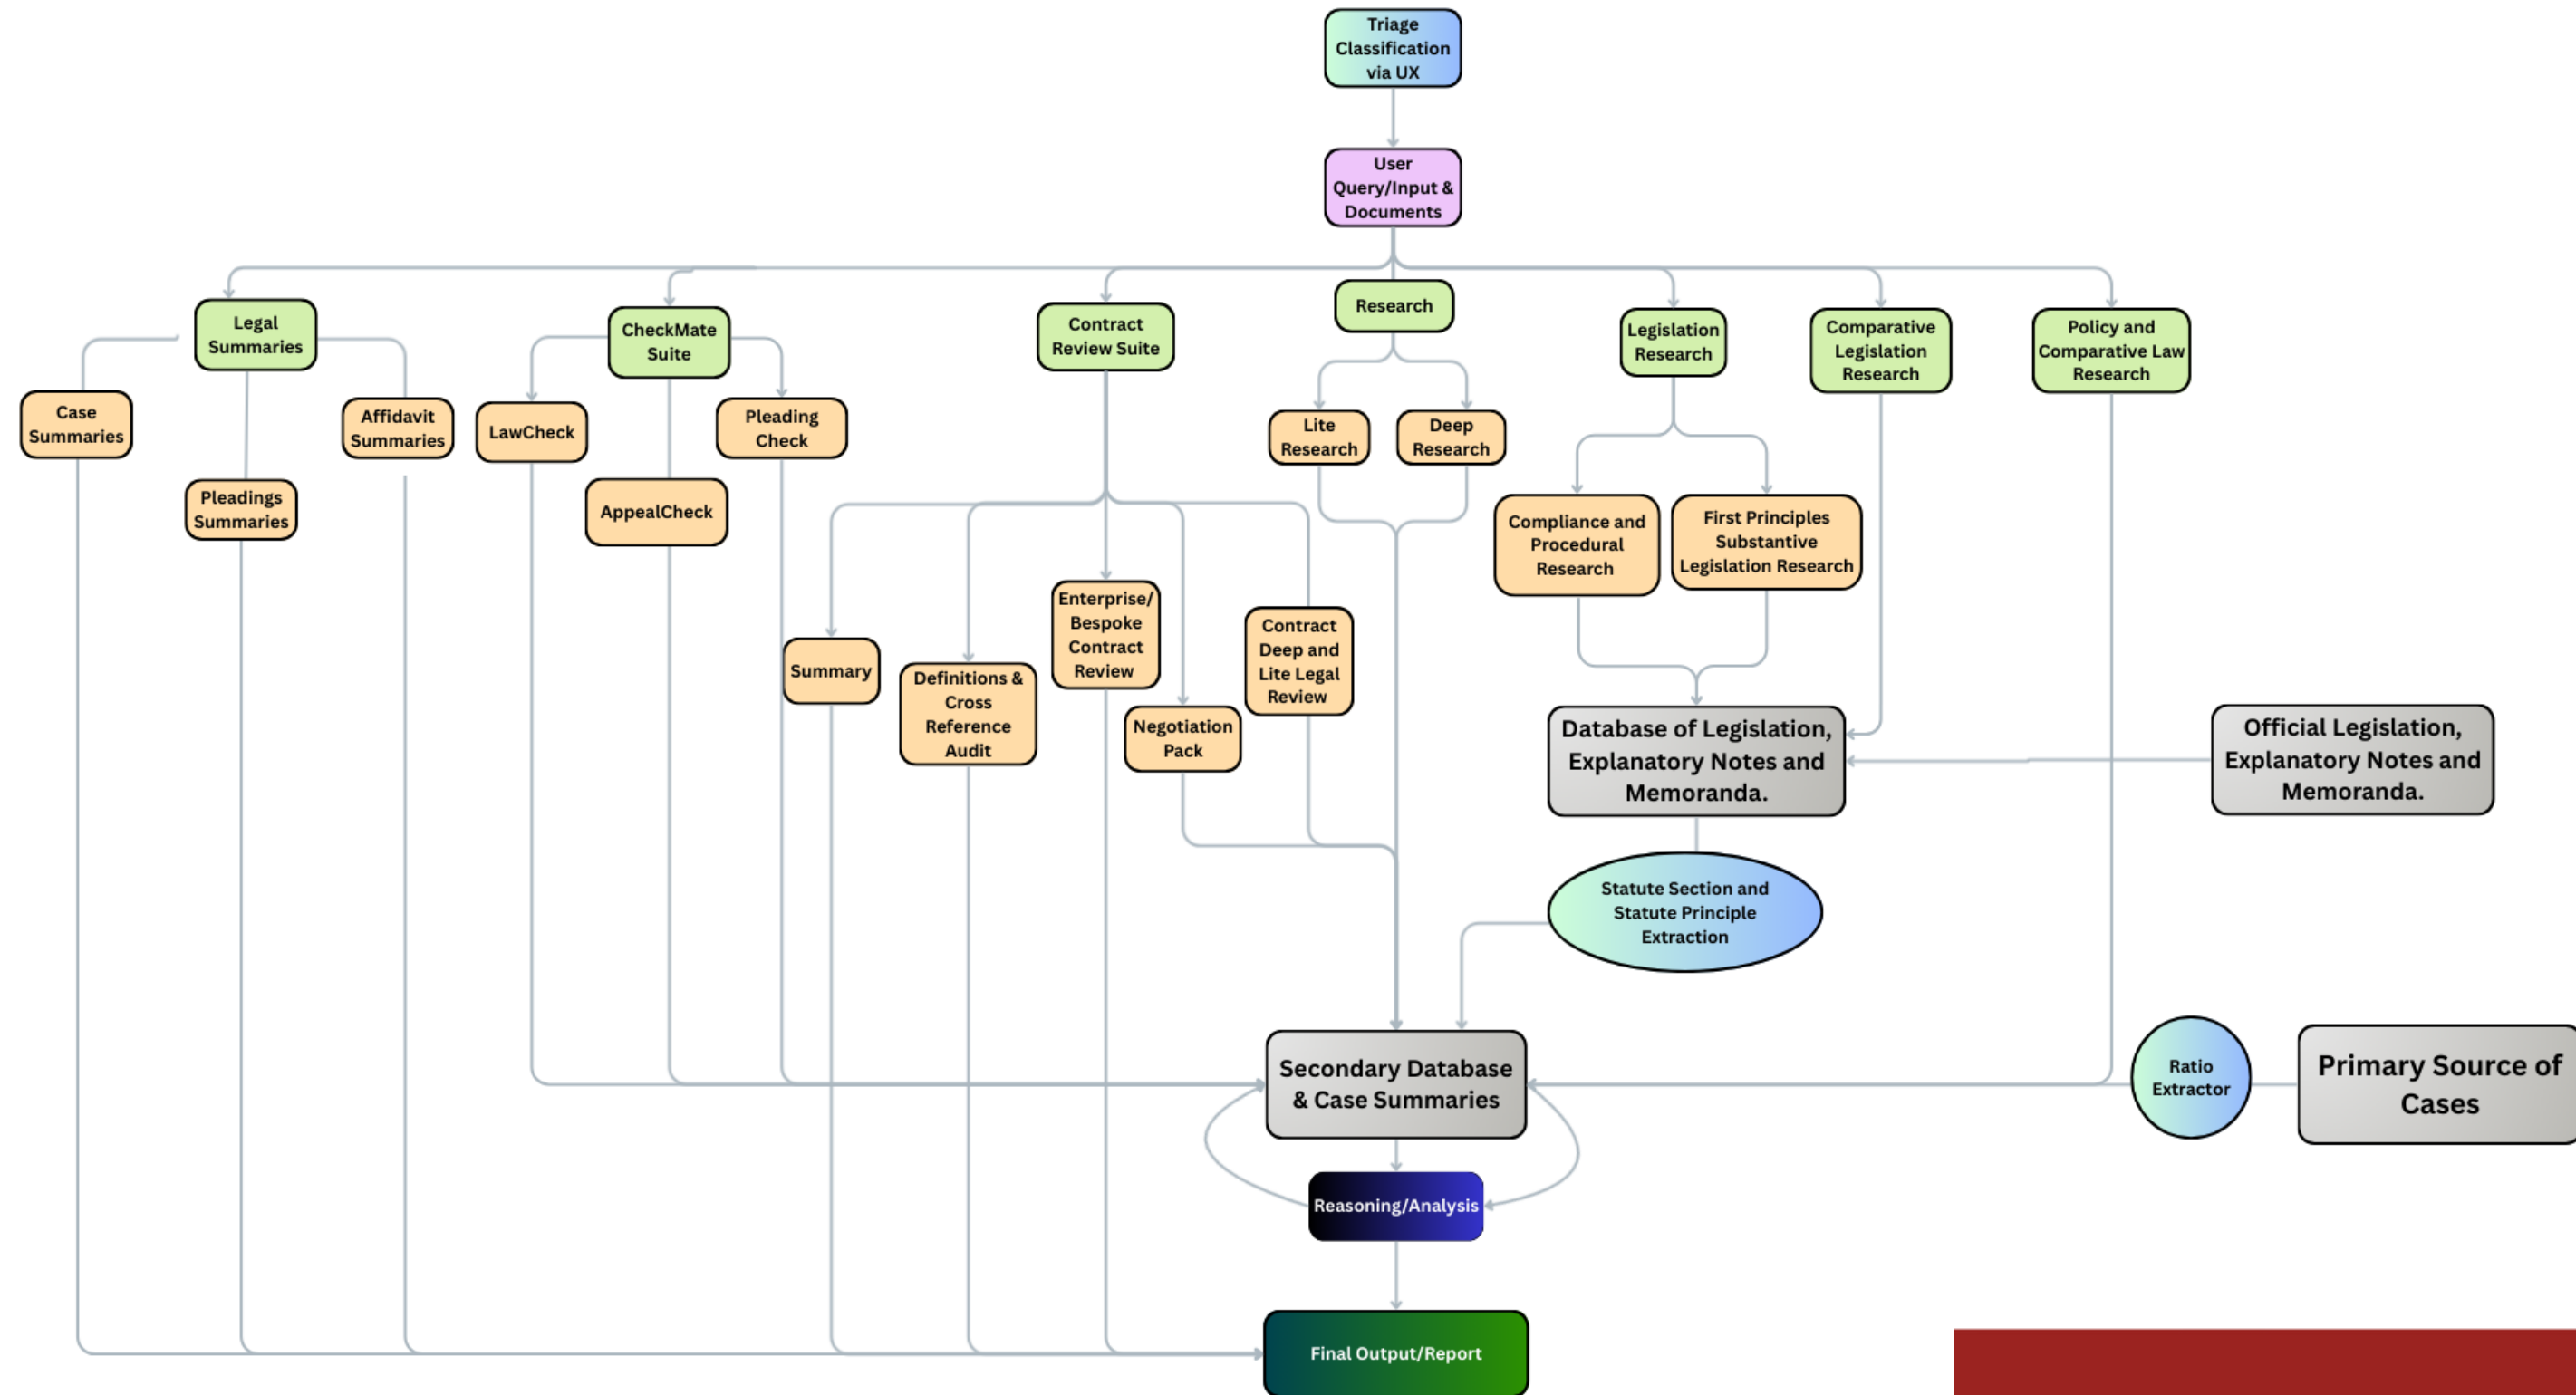

WHAT DIFFERENTIATES MIAI LAW

HOW MIAI LAW THINKS ABOUT LEGAL RESEARCH

- 1 Millions of Case Summaries and Legislation
- 2 Using semantic and keyword searches
- 3 Proprietary IP– Best in Class to identify decisive authorities
- 4 Irrelevant case summaries and legislation are discarded
- 5 Subset of Cases and Legislation sent to answer generation in accordance with proprietary prompts

**The law is easy to find.
Understanding Legal Relevance is NOT.**

AUSTRALIAN FEATURES

Beyond LLMs: Law Reasoned

1

Comprehensive Legal Research Reports – cases and legislation

2

Contract Review & Audit
Will your contract stand up in court?

3

Structured Contract/Pleadings/Case summarisation

4

Enterprise Contract Review – build your own prompt to interrogate your contract.

5

CheckMate – verify legal propositions in any legal document plus errors in judgments and pleadings

LAW FIRMS

Partner confidence in high-stakes matters

Close complex deals with fewer surprises

- Clear legal positions grounded in legislative and regulatory requirements
- Contract review that anticipates negotiation pressure and enforcement risk
- Early visibility of deal-critical issues — before they reach the client or the court

Argue from a position of strength

- Defensible case strategy from day one
- Early visibility of weaknesses, adverse authority, and counter-arguments
- Submissions and pleadings that partners can stand behind in court

IN-HOUSE COUNSEL

What MiAI Law supports:

- Clear, defensible legal positions for business decisions
- Rapid orientation on unfamiliar or fast-moving legal questions
- Defensible contract review — from audit and summary to negotiation leverage and enforceability
- Visibility of legal risk, uncertainty, and trade-offs
- Clear articulation of when external advice is needed — and why

DEMAND

Lawyers from National and International Law Firms as well as Australia's most prominent barristers are trialling the legal AI research partner.

This is the way of the future. It is great to see an Australian at the forefront.

The Honourable Michael Kirby AC CMG

It is, without exaggeration, AI for lawyers on steroids, and will become an essential part of a lawyer's toolkit.

Danny Feller SC

The contract/agreement review function is groundbreaking. ... Legislative research is made easy.

Ian Percy, Barrister

My firm has been trialling MiAI Law. The output is more comprehensive and reliable than any other AI product I have seen.

Steven Lurie, Partner, Clyde & Co

Case Studies

Based upon feedback from litigators

Mid Trial

Mid-trial, counsel asked his instructing solicitor a legal question. Time pressure meant that traditional research would not work. MiAI Law delivered the correct answer which was checked and provided to counsel. This led to the firm trialing MiAI Law.

Confirm Strategy

Counsel use MiAI Law to confirm whether their case strategy is on point. Senior Counsel have reported MiAI Law unearthing new lines of argument that they had not previously thought of.

LawCheck

MiAI law delivers structured case, pleadings and affidavit summaries. Users can also verify that opponent's submissions or pleadings have legal integrity. Errors of law in judgments are delivered in a draft notice of appeal.

New Areas of Law

Counsel and lawyers have used MiAI Law to get them up to speed on new areas of law to best serve their clients. Such work is typically non-chargeable.

Case Studies

Based upon feedback from
transactional lawyers

Contract Reviews

Inhouse lawyers have used MiAI Law's Summarisation and Negotiation Pack during deals.

The Negotiation Pack highlights the key issues and provides 3 alternatives thereby catering to both sides of the table.

Contract Drafting

The audit feature checks for ambiguity across defined terms and cross references.

The review function highlights problematic clauses. Users upload drafts until all issues are addressed.

New Areas of Law

Counsel and lawyers have used MiAI Law to get them up to speed on new areas of law to best serve their clients or stakeholders.

Such work is typically non-chargeable.

Deal Making

Lawyers use legislation research to ensure that their deals are legally compliant.

Contract Review is also used as a cross-check to highlight areas of risk and compliance with legislation.

COMPANY SUMMARY

Who We Are

Laina Chan and Dr Arjun Jain fuse deep legal expertise with leading edge AI.

Singapore provisional patent application no. 10202502330S covering legal reasoning methodology.

Key Details

Miai Law delivers structured legal research, verification, and audit-ready analysis grounded in authoritative sources, with transparent reasoning, pinpoint references, and direct source hyperlinks.

Its methodology is built around structured legal reasoning and verification to surface what matters, identify what is missing, and where legal risk lies.
