3. Conducting Post Project Reviews (FMC: Say it, See it, Share it, Decide it):

- ❑ Did the project meet expectations?

- ❑ What went well (with outside counsel and in-house team)?

- ❑ What improvements should be made or what should be done differently next time?

- ❑ What were the tasks or other surprises not anticipated in the original scope? How could those be avoided in the future?

- ❑ Did we handle the changes in scope effectively? What could we do better next time?

- ❑ Did we use technology efficiently?

- ❑ Did we communicate well across the teams (internally and externally)? What could we do better?

Best Practices

- ◼ Conduct PPR immediately after the matter.

- ◼ Include primary members of the team in the discussion (inside and outside counsel).

- ◼ Identify any factors, deliverables, or knowledge insights in this matter that may be relevant in future matters.

- ◼ Document what went well and any processes that need to be improved.

- ◼ Share discussion points with the team and keep the written documents in an accessible location for all.

4. Establishing Lines of Communication:

- ❑ Who will communicate with whom, when and how? (Be clear on what type of information is most important to each side.)

- ❑ What is the most effective way for us to share information as developments occur?

- ❑ Who needs to be informed when there is a change in scope (increase or decrease)? And what is the most efficient process for addressing a change in scope (workload, budget, etc.)?

- ❑ Does it make sense to schedule a regular (weekly, biweekly) meeting time for the team?

- ❑ Would formal reports be helpful? If yes, what information should they include and how often should they be provided?

- ❑ How often should we discuss updates in the budget?
